

PIR Energy Efficient Infrared Motion Sensor Lights AC85V-AC265V Voltage

Our Product Introduction

for more products please visit us on led-lightsbulb.com

Basic Information

- Place of Origin: Shenzhen. China
- Brand Name: NCJ TECH
- Certification: CE
- Model Number: NSL-R01
- Minimum Order Quantity: 100 pcs
- Price: Negotiation
- Packaging Details: White box + Outer box (K=A)
- Delivery Time: 1: Sample and small order: Within 7 working days after receiving your payment. 2: Bulk order: 3-4 weeks after receiving your deposit.
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs per month

Product Specification

- Wattage: 5W/7W/9W
- Voltage: AC85-265V
- Bulb Base: E27 E26 B22 E17
- Luminous Lux: 450lm
- Material: ABS+PC Housing
- Color Temperature: 3000k-6500k
- Beam Angle: 120°
- Highlight: Infrared Motion Sensor Lights AC85V, Infrared Motion Sensor Lights AC265V, Energy Efficient Motion Sensor Lights

Product Description

Energy-Efficient Infrared Detecting Lights AC85-265V Voltage 5W/7W/9W Wattage

Product Description:

PIR Sensor Lights is a motion-detection light that uses infrared detecting technology to detect movement and provide illumination. This product is made of high quality ABS+PC housing for durability and sturdiness. It is available in different bulb base types like E27, E26, B22 and E17. It has a beam angle of 120 degrees and voltage of AC85-265V. It also provides a luminous lux of 450ml. PIR Sensor Lights is a great choice for residential and commercial lighting, providing a safe and efficient lighting experience.

Technical Parameters:

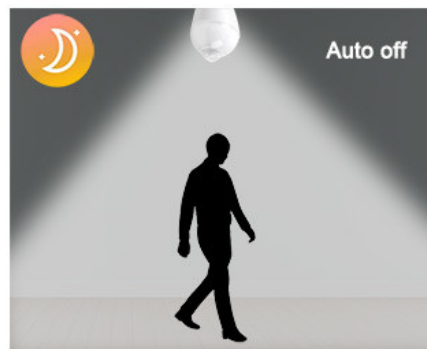

Bulb Base	E27 E26 B22 E17
Wattage	5W/7W/9W
Luminous Lux	450ml
Material	ABS+PC Housing
Beam Angle	120°
Color Temperature	3000k-6500k
Voltage	AC85-265V
Special Feature	Motion-Activated Lights, Infrared Detecting Lights
Working Temperature	-20 —40
Working Humidity	5%-95%
Detection Angle	150°
Detection Distance	5-8m

350° Rotating Sensing Head

It can accurately sense the motion of people

1. During the day, people and cars pass by, and the lights will not light up.

2. At night people enter the detection area and the lights automatically light up.

3. The person moves in the detection area until the person leaves, the light continues to light up

4. After the person leaves the sensing range for 50-60 seconds, it automatically turn off

Support and Services:

We provide technical support and services for PIR Sensor Lights. Our team of professional technicians can assist you with any technical issues you may have. We can provide troubleshooting advice, help you with installation and setup, and answer any questions you have about your PIR Sensor Lights. We also have a comprehensive knowledge base to help you find solutions to common problems. If you need further assistance, our customer service team is available 24/7 to help you with any additional needs you may have.

Packing and Shipping:

Packaging and Shipping of PIR Sensor Lights

PIR Sensor Lights are packaged in a strong corrugated cardboard box to ensure the safety of the product during shipping. The box is filled with biodegradable packing peanuts to secure the product and protect it from shock and vibration. The box is sealed with strong tape for extra protection during shipping.

The PIR Sensor Lights will be shipped via an insured and tracked shipping carrier. The delivery time varies depending on the destination. The tracking information will be provided to the customer upon shipment.
